Vision Statement:.....in partnership with parents and community, the Chewelah School District provides a well-rounded educational opportunity in a safe and secure environment through focused and quality programs and collaborative teaching and learning experiences for all learners to maximize personal achievement as productive members of society.

In order to live our mission and vision we commit to:

- Using “data driven decisions” provide support for all students and staff to meet the highest levels of performance and achieve their maximum potential.
- Align curriculum instruction and assessment to district state and national standards.
- Monitor results of student learning using data to drive decisions to help improve learning and teaching.
- Professional development using data and research-based practices that are consistent with district/building values and core beliefs.
- Create an educational environment that is challenging, safe and enjoyable leaving all stakeholders with a sense of belonging.
- Build a culture of trust, mutual respect and stability that fosters the advancement of knowledge and personal growth.
- Promote, provide for, and expect family and community involvement.
- Effective and accountable leadership united in purpose for student learning and clear instructional expectations.
- Actively and clearly communicate our performance of the district’s mission statement.
